

# Geopolitical Freight Risk Advisory: Taiwan Strait Transit Disruptions

---

**Bulletin ID:** BUL-GEO-2026-01 | **Classification:** DISRUPTION\_BULLETIN | **Published:** 2026-01-20

**Issuing Agency / Entity:** Global Maritime Logistics & Sovereign Supply Watch

## Section 1: Situation Assessment & Incident Summary

Heightened naval exercises and declared exclusion zones in the Taiwan Strait have caused major container carriers and air freighters to reroute or freeze cargo out of Kaohsiung and Taipei ports.

## Section 2: Impacted Trade Routes & Hardware Components

Sub-tier wafer fabrication and packaging for AMD MI300X, NVIDIA H200, Broadcom Tomahawk 5, Wiyynn compute sleds, and Delta 48V power shelves.

## Section 3: Supply Chain Lead Time & Financial Forecast

Expected lead time delay of +16 weeks on all direct shipments and indirect sub-tier assemblies originating from Taiwan.

## Section 4: Contractual & Municipal Penalties

Carriers have invoked maritime emergency surcharges; buyers advised to assess liquidated damages applicability against Tier-1 vendors.

## Section 5: Recommended Mitigation Actions

Qualify secondary European assembly partners; activate regional safety stock reserves.
