

US BIS Advanced Compute & Semiconductor Export Controls Regulatory Briefing

Bulletin ID: BUL-REG-2025-04 | **Classification:** DISRUPTION_BULLETIN | **Published:** 2025-10-30

Issuing Agency / Entity: US Department of Commerce, Bureau of Industry and Security (BIS)

Section 1: Situation Assessment & Incident Summary

Updated Export Administration Regulations (EAR) tightening Total Processing Performance (TPP) and performance density thresholds for advanced AI accelerators.

Section 2: Impacted Trade Routes & Hardware Components

NVIDIA H200 (SKU-GPU-H200), high-density optical switches, and wafer-level testing equipment.

Section 3: Supply Chain Lead Time & Financial Forecast

Mandatory end-user licensing required for non-EU entities. Inspur Systems placed on Entity List (Sanctioned status).

Section 4: Contractual & Municipal Penalties

Civil and criminal penalties under EAR for unauthorized secondary re-export or diversion.

Section 5: Recommended Mitigation Actions

Prioritize European sovereign hardware and AMD ROCm open infrastructure stacks.
